INTRODUCTION & ORDERING

your enquiry

We will be delighted to quote any requirement from a single chair to a full turnkey project package.

Discounts are available for volume orders or for customers who regularly order smaller quantities. Setting up an account with Craftwork is straightforward and saves you money from the first day of trading.

to order

Please send your order through by email or fax detailing for each product -

Name of product, wood colour, fabric design, seat height (on chairs), size and leg type (on tables).

And for your organisation –

Delivery address, invoice address, contact name / tel. no. (purchaser), contact name / tel. no. (recipient), delivery requirements.

order acknowledgment

Once an order has been processed, an order acknowledgment will be sent to you.

Generally order acknowledgments are sent the day after the order has been received.

Please check the order acknowledgment carefully on receipt.

payment

Payment is either on account or on proforma invoice issued with the order acknowledgment.

Payment may be made by cheque or by bank transfer.

delivery arrangements

A variety of delivery arrangements are available with deliveries made on a tailgate, nearest room or placement basis. Our sales office will be happy to quote for your specific requirements.

seat heights

We offer a range of seat heights from 410mm - 510mm on many of our chairs. Ask our sales office for details.

pressure relief

All chairs can be provided with pressure relief seat foams as an optional extra.

fabrics

We can supply a huge range of fabrics in price ranges to suit any pocket. We will work on a COM (Customers Own Material) basis and are happy to upholster in multiple fabrics, with contrast piping or with contrast seats. See page 71 for details of our range of upholstery finishes.

wood colours

We offer a range of 6 standard wood colours on chairs, sofa's and tables and can colour match to customers existing furniture on request.

On cabinet furniture we offer 4 colours as standard with an additional range of 12 colours available as specials.

See page 70 for details of our wood finishes.

The LRV's for all the wood shades we offer are available from our sales office on request. The sales office can also provide colour swatches for all our standard colours.

value for money

We keep it simple. We manufacture in our Leeds factory and don't employ an extensive sales force or run a large marketing budget. This allows us to keep our costs down and means our customers can benefit from buying high quality products at exceptional prices.

nhs framework supplier

We are framework suppliers to the NHS on contract FAG16544 for ward and residential furniture and on contract FAG16206 for mental health furniture.

flame retardancy

All our furniture is suitable for medium hazard areas as defined by BS 7176. We use only contract grade CMHR foams and use fabrics which comply with BS 5852 crib5 as standard. We can produce furniture suitable for high hazard areas with crib7 testing if required.

chair frames

Our frames are made from air or kiln dried European hard wood sourced from sustainably managed forests. We do not use softwoods or chipboards. Upholstered frames are constructed from glued, screwed and dowelled components. Show wood frames utilise comb and mortise & tenon joints for strength.

cabinet furniture and tables

We manufacture in contract grade MFC, MF-MDF, HPL and beech veneer MDF. Cabinet drawers are metabox construction and carcass thickness a minimum of 18mm. See cabinet and tables section for further information.

finance offer

Finance is available to reduce the upfront costs of larger schemes. Contact our sales office for details.

chair finishes

We use Medicote wood lacquer on all our sprayed finishes. This contains antibacterial agents to fight a wide range of bacteria including MRSA and Salmonella. All spraying is carried out to BS 6250 severe contract standard and involves 2 - 3 layers of lacquer to provide an ultra tough finish.

sustainability

Our site is certified under the FSC® chain of custody standard, certificate SA-COC-002991. The chain of custody system ensures manufacturers source wood from sustainable sources. FSC® certified products are indicated with a □

quality

Our quality system is compliant with ISO 9001:2015. We have tested many of our chairs to BS EN 16139:2013 tables to BS EN 15372:2008 and cabinet furniture to BS EN 16121:2013. Every item of furniture we produce is inspected at each stage of the manufacturing process and again before dispatch. Each craftsman signs off his work on a quality assurance slip that stays with the product all its life. A works reference number, on the same slip, provides full traceability.

symbols key

The following symbols are used throughout the brochure to show the availability of variations on the product shown or to highlight product features:

- ≠ sofa bed
- # extreme
- * loose / fixed seat cushion
- △ skis
- ◇ stackable

TABLES

Standard veneer top with rounded profile

HPL top with bull nose profile

hard wearing

Our wide range of tables are available with standard tops (beech veneer on an 18mm MDF core) or HPL tops (high pressure laminate on an 18mm MDF core). The latter is ideal for more demanding situations. Tops can be supplied round, square, rectangular 'D' ended or oval to a range of standard sizes as shown on page 47. All 4 legged tables are available with square, square taper or round taper legs. Queen Ann legs are also available on 4 legged low coffee tables. Rails can be cut away for wheelchair access.

See pg 68 for our range of extreme tables for demanding locations.

Removable, Reversible Seat cushion

The seat cushion on all Cambridge chairs is removable. Reversing the seat changes the seat depth to ensure an ergonomic sit. A seat depth of either 490mm or 525mm can be selected this way.

This reversibility also prolongs the life of the seat cushion by evening out the wear.

Images on the right illustrate the variable seat depth.

Chair Height Indication Stickers

A three colour system to indicate seat height –

Red	510mm
Yellow	460mm
Green	410mm

The sticker also shows the weight restriction on the chair.

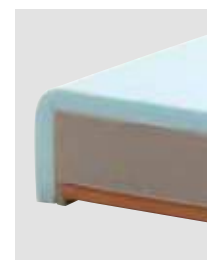

Medium Risk Pressure Relief Cushion

Optional extra on Cambridge chairs.

The seat cushion is made up of a layer of Reflexion pressure relief seat foam over a Reflex foam base.

The Reflexion layer provides malleable pressure relief while the Reflex base ensures sufficient firmness to avoid the foam bottoming out with prolonged sitting.

The Reflexion layer is wrapped around the front and back (as the seat is reversible) to provide pressure relief to the backs of the legs of the patient.

Curved, Rounded, Ergonomic Arm

Designed for patient comfort with a rounded top surface and protruding easy grip arms to ensure it is as easy as possible for the patient to raise or lower themselves from this chair.

Drop Arms

A four position rigid drop arm to fit all Cambridge chairs.

The lowest position sits below the height of the seat cushion to allow easy patient transfer.

Height Adjusters

Optional extra on Cambridge chairs.

Easy to operate, robust, height adjusters vary the height of the chair by 100mm in 5 steps.

We supply chairs with a standard range of 410mm-510mm. Please specify the range of heights required if you require anything different eg 390mm-490mm or 430mm-530mm etc.

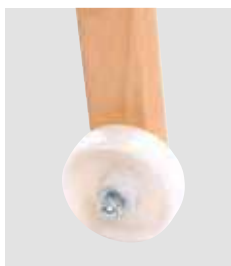

Housekeeping Wheels

Optional extra on Cambridge chairs.

A simple robust housekeeping wheel for all Cambridge chairs.

The base of the leg is chamfered to ensure the chair travels easily on these wheels when tilted.

HOSPITAL CABINETS

our hospital cabinets

Manufactured in 18mm MFC with MDF tops, drawers and door fronts.

Rounded polished edges for longevity and to avoid patient injury.

Cut-away handles.

Wardrobe h 1420 w 300 d 500

Rounded Polished Corners on MDF Tops, Drawer and Door Fronts

Tops, drawer and door fronts are manufactured in MDF with edges polished to severe contract standard under BS 6250 to ensure a super tough finish.

Polished edges provide a high level of impact resistance verses conventionally edge banded MFC tops while rounding the corners improves patient safety.

Cut away handles remove the need for conventional protruding handles.

Drawer Constructed with Metabox Sides Running on Contract Grade Metal Runners

The height of the metabox sides is 120mm to produce a generous drawer depth.

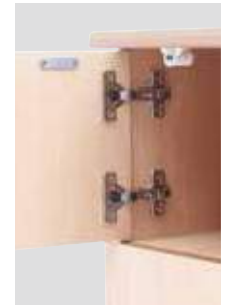

Strong Flap Mechanism with Sunk Hinges

Cabinets are supplied with a strong flap mechanism and sunk hinges to give easy access to the flap compartment.

Side Door Supplied with Two Hinges

This overcomes the problem, when a piano hinge is used, of the door being ripped off the carcass if accidentally leaned on while open.

Accessories

A towel rail can be provided as an optional extra.

A bowl holder can also be supplied as an optional extra.

Lockers come with two keys as standard.

There are the following options of master key sets –

Up to 20 locker

20 – 50 lockers

50 + lockers

COMO

WOOD COLOURS

Polish Colours - all chairs, standard veneer table tops and New England cabinet furniture.

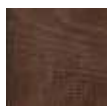

Natural

Beech

Light
Oak

Dark
Walnut

English
Walnut

Mahogany

Please note - Our natural shade is produced by polishing unstained wood. As wood is a natural product some variation in the final wood shade may occur where 'natural' is selected.

We also offer a colour matching service on polished colours for a small surcharge per colour match.

HPL colours - HPL table tops only.

Maple

Beech

Light
Oak

Dark
Walnut

English
Walnut

Mahogany

Cabinet colours - bedroom and lounge cabinet furniture.

Maple

Beech

Light Oak

Dark
Walnut

The above are our standard shades.

Additional cabinet colours

Bavarian Beech

French Walnut

Gold Odessa Oak

Light Westminster Oak

Manhattan Grey

Black

Ocean Green

Sky Blue

Evergreen

Ivory

Graphite Grey

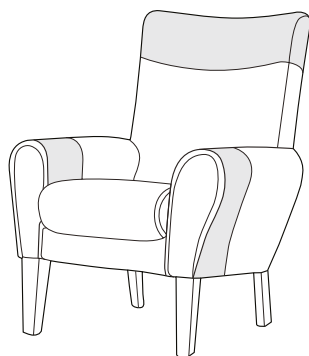

Simply Red

These are available on cabinet furniture with a small surcharge.

UPHOLSTERY OPTIONS

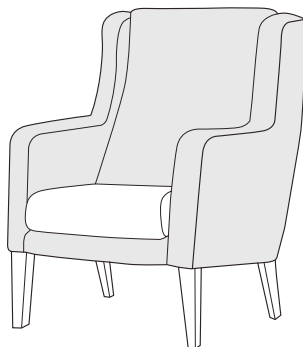

choice

There are dozens of ways we can upholster our chairs to give your scheme the look and durability you require. These are just a few examples. Our sales office will be able to give you more information and tell you which of these options work with your chosen chairs.

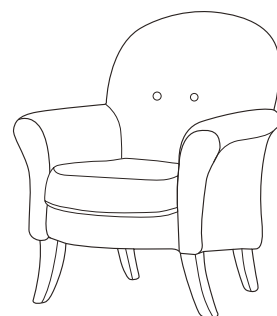

Dual Fabrics

Uses a more durable fabric or faux leather on areas of high wear such as arms.

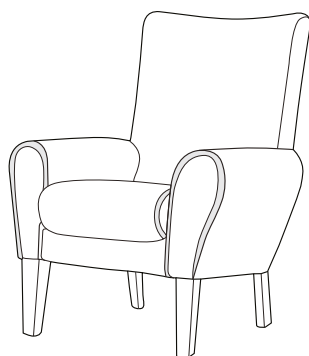

Contrast Cushions

Increase your choice by using healthcare fabrics on just the seat cushion.

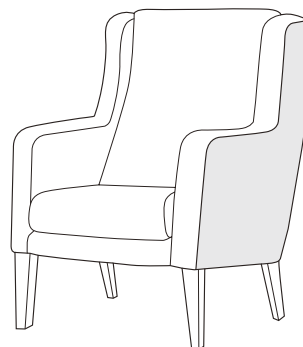

Button Back

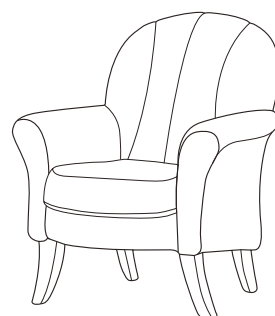

Contrast Piping

Looks good and can be useful for the partially sighted.

Contrast Sides

Adds interest to the scheme.

Fluted Back
